When it comes to completely understanding its surrounding nature, the human being is totally in the dark, even when the sun is shining bright in the sky. The very need to have an external lighting source is enough to prove that the human being is limited in his capabilities. Thus when mentally concocted theories about the Supreme Absolute Truth, the origin of life, are posited in spite of this great limitation on intelligence and observation, the results miss the mark by a long shot. But through utilizing a different approach, the intelligence level that is our destiny can be reached very quickly. Not only can the necessary knowledge come to us without much strain, but we can also put it to good use.
