Reviews

*It is really an awesome ebook which i have ever go through. It is actually writter in straightforward terms and not confusing. I am very easily could get a satisfaction of reading a written ebook.
(Clotilde Wiegand)*

THE STONE-MILLIS ARITHMETICS ADVANCED (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Stone-Millis Arithmetics Advanced The Stone-Millis Arithmetics have been prepared with a view to adapting the teaching of arithmetic more adequately to the interests and to the needs of children of the present day. The adaptation to children s interests is secured through the use of the play instinct in the primary grades, and through the use, in all grades, of problem material relating to the various activities of children in and out of school, and to facts touching their experiences more or less directly. The adult point of view and the interests of adults have not been unduly obtruded into the work. In the second and third grades, especially, numerous games have been introduced that have been found, by actual use in the schoolroom, to be of intense interest to children, and to provide excellent drill work. Much problem material correlated with the hand work or industrial arts work of the modern school has been given. Many groups of problems relating to the common phases of community life with which the child comes into daily contact, have been used, such as collecting the mail, getting the coal supply, problems of the fruit vender, the parks, railroad traffic, etc. Underlying this attempt more adequately to adapt the teaching of arithmetic to the interests of children, is the authors belief in the fundamental principles of education: I. All mental growth comes through the self-activity of the individual pupil in solving situations that to him are concrete and vital. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books...
