Reviews

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).

This series develops important comprehension and thinking skills at the earliest level. Introductory exercises teach word families and vocabulary, while follow-up questions develop students understanding of the stories and encourage their reasoning abilities. After each story, students can complete illustrations by adding their own drawings. Grades 2-3.
