AuthorHouse. Paperback. Book Condition: New. Paperback. 176 pages. Dimensions: 8.0in. x 5.0in. x 0.4in. No matter who you are, time plays a important role in our lifes. From the time you are born, till the time you die, there is a space that is measured in a span of time. Time to get up, time to go to bed, time to eat, time to go to school, time to go to work, time to go home, I dont have time for this, oh ya, Ill make time for that. Theres hardly enough time, to be on time, even when you got the time. Today, tomorrow, yesterday, last week, next week, past time, future time, no time, dead time. Throughout time a few events kinda stick out, well bring some of them to our attention. Prehistoric events, prehistoric animals, prehistoric man and his achievements through time. Space. . . scientist claim space goes on for ever, that there is no visible end. No man can prove that it doesnt, when no ones been out of our solar system. We send telescopes to the far end of our solar system in hopes of learning more, but that will take approximately 10 more years from 206. Space is a place so vast that it can not be totally discover, theres many things we do and dont know. Our planets, moons, stars, constellations, solar system, universe, galaxy, other galaxies, other universes that we cant go too, only look at. We cant even imagine what miracles the exterior of infinite eternity (space) has that may have all, or most of our answers. Everything is energy, from the air we breath to grass we walk on has a certain energy level. It take energy to do everything, with out energy things dont happens. Theres positive energy,...
